CAREER SUMMARY

BS Computer Science graduate with a strong foundation in Front-End Web Development and web application development, skilled in HTML, CSS, JavaScript, and MySQL, with practical knowledge of responsive web design and user-friendly interface development. During my academic studies, I developed practical web-based projects, including an Online Medicine Distribution Management System using HTML, CSS, JavaScript, PHP, and MySQL, featuring user authentication, product management, order management, inventory, and responsive interfaces. I also developed a responsive Personal Portfolio Website using HTML, CSS, and JavaScript. In addition to my technical background, I gained one year of professional work experience at Azan Medical Center, Bajaur Road, Munda, from May 2025 to May 2026. I have practical knowledge of MySQL database management, Visual Studio Code, Git, GitHub, MS Office, and Graphic Designing. I have completed a Diploma in Information Technology (DIT) and NAVTTC Graphic Designing training. I achieved a CGPA of 3.51/4.00 in BS Computer Science and secured 1st position in DIT at Khyber University of Language and Computer Science, Timergara, Dir Lower. I am a motivated and quick learner seeking a Web Development opportunity to apply my technical knowledge, gain industry experience, and contribute to effective, responsive, and user-friendly web solutions.

EXPERIENCE

Web Development & Academic Project Experience

2025 – 2026

- Developed an Online Medicine Distribution Management System using HTML, CSS, JavaScript, PHP, and MySQL.
- Implemented user authentication, product management, order management, and inventory management features.
- Designed responsive and user-friendly interfaces for different parts of the web application.
- Developed and maintained a Personal Portfolio Website using HTML, CSS, and JavaScript.
- Worked with MySQL databases and used Visual Studio Code, Git, and GitHub during project development.
- Applied problem-solving and web development concepts to build functional and responsive web-based solutions.

Computer Operator – Azan Medical Center, Bajaur Road, Munda

May 2025 – May 2026

- Managed daily operations through the medical center's online management system.
- Entered, updated, and maintained patient and organizational records in the online system.
- Managed and organized digital information with accuracy and confidentiality.
- Performed data entry and regularly updated records through the system.
- Prepared and maintained computer-based records and reports as required.
- Handled routine computer operations and provided support for daily administrative activities.

PROJECT

Online Medicine Distribution Management System

- Developed a complete web-based application focused on managing the distribution of medicine online.
- Implemented user authentication, product management, order management, and inventory features.
- Used HTML, CSS, JavaScript, PHP, and MySQL.
- Designing user-friendly and responsive interfaces.

This project improves the accuracy, reduce manual work, save time and ensure better coordination between distributor and medical stores.

Personal Portfolio Website

- Designed and developed a modern, responsive personal portfolio website to showcase my education, technical skills, certifications, and projects.
- Built the website using HTML, CSS, and JavaScript, with a clean and user-friendly interface.
- Optimized the website for responsiveness and consistent performance across all devices.
